EDUCATION

UNIVERSITY OF CALIFORNIA, SAN DIEGO | BA IN ECONOMICS

2006 – 2010 | La Jolla, CA

WORK EXPERIENCE

For over seven years, I worked at the most profitable and busiest Costco regional office in the world. Throughout my tenure, I have managed over 50 vendors and 400 grocery items totaling about \$25 million worth of inventory. This is where my passion for design emerged. My hands-on experience with product packaging and design in the retail industry has provided a foundation upon which I can use to transition my career towards the field of User Experience Design.

US FOODS | SALES COORDINATOR

Feb 2020 – Present | Atlanta, GA

- Maintained ongoing relationships with broad range of customers in food and beverage business to find and resolve their needs for large bulk purchases.
- Served as the primary liaison between Customers, Territory Managers, District Sales Managers and Product Sales Support Administrator (PSSA)

COSTCO WHOLESALE KOREA. LTD | ASSISTANT BUYER

Nov 2014 – Jul 2018 | Gyeonggido, South Korea

- Sourced suppliers, arranged and launched new potential items to meet the needs of customers
- Conducted interviews with suppliers to investigate challenges & issues experienced by suppliers
- Finalized and confirmed product, logo, and package designs with suppliers
- Finalized item up-size project for products with low sell price, long shelf life and fast turnover resulting with 12.7% average sales increase from previous year
- Planned and launched 3 special marketing events (Roadshow/Popup) to introduce new items and its special event category sales rocketed with comp growth of 104.3% than last year
- Optimized customization of domestic packaging design by reducing labor time and cost of applying sticker labels effectively

COSTCO WHOLESALE KOREA. LTD | INVENTORY SPECIALIST

Jul 2012 – Nov 2014 | Gyeonggido, South Korea

- Forecast sales, issued and reviewed purchase orders accordingly to keep stocks within optimal levels
- Planned product demonstration events and gathered feedback for new products after launch
